

**Prepared by: Pratik Bhandari (UI/UX Designer, Team ADSEI-B)**

## **Design concept**

The design concept for the development of ADSEI-B project will be o

### **From prospective of team**

1. Team showcase website created showcasing all teams motive and details.
2. Navigation flow of visualization from the showcase website.

### **Key elements of website:**

- 1) About Project and data
- 2) Our expertise
- 3) Services
- 4) Visualisations
- 5) About Team
- 6) Contact us

### **Forms included:**

- 1) Contact us

### **From Prospective of Client**

The following flow shall be used:

- 1) A map to be displayed to hover average temperature of every country possible.
- 2) When any country is clicked, different visualization will be displayed:
  - Bar chart
  - Comparison graph
  - Pie-chart

The charts will have following relationship

Y axis--- Temperature

X axis--- Time

The plot will have the average temperature of the different time span and plot will be of country/city/state.
